Oakland Harvesters got good reviews from lakefront property owners. Harvesting and chemical treatment will follow a similar schedule for 2022.

Mr. Hausler presented the treatment and harvesting results of last year. Prices will remain the same for treatment in 2022 with possibly a slight increase for fuel cost.

Mr. Hausler stated that copper can no longer be used to treat after May 1st due to effects in fish spawning.

Harvesting should be completed in late June and mid August with the first treatment in mid May.

Other Items

Mr. Bates to apply for goose roundup this year.
